HARDING OPPOSES FURTHER CREDITS EUROPEAN NATIONS

(International News Service.)

WASHINGTON, Jan. 23.—The gov-
ernment must not be expected to
establish further credits to European
nations, and the vast sums that are
demanded for European rehabilitation
must come through credits arranged
through the medium of private capital
and enterprise, Governor W. P.
G. Harding of the federal reserve
board, today declared in an address
before the delegates to the second
pan-American financial congress.

Governor Harding laid it down as a
policy which the nation must adhere
to rigidly that governmental econ-
omy, thrift and conservation must be
the watchword, and declared it to be
absolutely imperative that in future
foreign credits must be restricted to
essential purposes.

A committee to investigate the cost
of a new home, to gather data on

denied by the Treasury department.
Speakers last night declared it is now
up to the Legion to obtain a perma-

Plans discussed call for residential
structure to be equipped with an as-
sembly room for post meetings, club
rooms and a gymnasium.

The by-laws adopted by the tem-

to the defense of Homer Cummings,
chairman of the democratic national

tack made upon the chairman by Wm.

the inaugural dinner of Governor
Edwards of New Jersey.

"If I were chairman I would have
attended," said Secretary Daniels.
"Governor Edwards' platform meets
with my approval, with the exception
of his stand on prohibition, and I
can't see why that question should
interfere with the democratic nation-

ENGLAND FACES 'MOTHERS' STRIKE'

M. P. Father of Seventeen Children,
Declares That Mothers Object
to Bigger Families.

By FLOYD MacGRIFF,
International News Service Staff
Correspondent.

LONDON, Jan. 21.—A Hayday, La-
bor member of Parliament, who is
the father of seventeen children and
has an income of \$70 weekly, declares
there is a growing movement in Great
Britain "which may be termed a
'mothers' strike," due to the hard
work the lower and middle classes
have in maintaining a home. He re-
vents suggestions those classes should
strive to make up the war-wastages
in man power.

"These people definitely preach
we must have increases in our popu-
lation," said Mr. Hayday. "If these
people were to go around holding
public meetings advocating their
views before the mothers of the coun-
try they would be mobbed."

"The many women who have to do
their best to keep life in their child-
ren by buying them penny cubes of
some meat extract and by some spe-
cial favor obtain bones from the
butcher for soup, are in no mood to
add indefinitely to their present
rushing anxieties."

"Many of these mothers and fa-
thers have to sacrifice their own
meals to provide food for their child-
ren."

"There is growing over the country
today a woman's movement which
may be called a 'mothers' strike.' And
who can blame these women? It is
really a condition of things more
serious than any epidemic ever could
be."

"The women of England have
come definitely to decline to accept
the responsibility of bearing children
unless and until the public on State
gives definite assurances that the
mother will be exalted and lifted to
the higher pinnacle which she de-
serves to occupy."

"Fathers and mothers not only are
harassed by the increased cost of
living, but they also are hunted from
the houses they occupy and are re-
fused admittance into others because
their children are declared to be a
nuisance."

"The 'mother strike' will continue
until mothers are afforded more pro-
tection than they now receive from
those in authority and in a position
to provide such protection."

"It is my view, mothers should re-
ceive a guarantee of a minimum pen-
sion of \$2.20 weekly for each child un-
der the age of fourteen. There should
be local boards under the Health
Ministry to increase the grant up to
\$4.20 a week, or more in special cases.
"Until that time arrives it will not
be advisable for public men to face
the women of England and urge in-
creased population."

Mr. Hayday says he has to add to
his fixed income through lectures in
order to maintain six of his twelve

NASHVILLE BANNER BUILDING IS DESTROYED BY FLAMES

Paper Was Published Today Through Courtesy
of the Tennessean

(International News Service.)

NASHVILLE, Jan. 23.—The Nash-
ville Banner, one of the oldest papers
in the south, was practically destr-
oyed by fire late yesterday afternoon
with a loss of \$100,000. The flames
started in the stereotyping depart-
ment from an overheated type. Many
of the employees had narrow escapes.

This is the Banner's fifth fire. The
building stands a complete wreck. The
first and second floors, which escaped
the flames, stand in water carpeted
with plastering and debris. The
Banner was enabled to appear on the
streets as usual today through the
courtesy of the management of the
Tennessean, the morning paper.

turned on early next week, according
to announcement of officials of the
Alabama Power company.

The transmission line from the

long and is the longest in the nation,
it is said. The work of building the

als could be obtained.

The power for all lighting pur-

ASSEMBLY FIGHT GROWING BITTER

MEMBERS OF JUDICIARY COM-
MITTEE SPLIT ON EXPELL-
ING SOCIALISTS.

(International News Service.)
ALBANY, N. Y., Jan. 23.—The in-
tense bitterness of the fighting in
the New York legislature to remove
from its midst five socialist mem-
bers has now extended into the mem-
bership of the judiciary committee
itself, which is hearing evidence
against the socialists.

Five or more of the thirteen mem-
bers have expressed themselves in
secret session as being against the
decisions which have been made by
Chairman Martin against the various
motions of Morris Holquitt, attorney
for the socialists, and when adjourn-
ment was taken several of the rebel-
lious members of the committee were
preparing to make themselves heard
when the hearing begins next Tues-
day.

WHAT TO DO WITH PLANT IS QUESTION

Hundred Million Dollar Outfit is
Now Entirely Idle.

(International News Service.)

FLORENCE, Ala., Jan. 23.—The
committee from the house investigat-
ing war expenditures at the Muscle
Shoals nitrate plant decided today to
end its sessions.

It was declared by Chairman Gram-
ham that there were so many wit-
nesses to be examined that in order
to save time they would give their
testimony in the form of affidavits,
which would be examined by the com-
mittee later.

It was stated that enough evidence
had been secured to show the commit-
tee that the methods used in con-
structing the nitrate plant here were
not conducive to economy or effi-
ciency.

The members of the committee now
are said to be mainly concerned
with a solution of this problem—what
to do with the plant which cost the
government \$100,000,000 and which
is now idle.

BELGIUM IS FAST REBUILDING TRADE

Merchants of War-Torn Country
Quickly Renew Pre-War
Trade Standards Here.

(International News Service.)

WASHINGTON, D. C., Jan. 21.—
Heroic Belgium, war ridden, almost
ruined by the depredations of the in-
vader, apparently is going to be the
first of the European nations to fully
rehabilitate herself. This is fore-
shadowed by the nature of her im-
ports from the United States, as well
as the fact that on no occasion since
the cessation of hostilities have her
merchants overlooked an opportunity
to renew and restore to pre-war
standards their trade with this na-
tion. Figures made public by the
Department of Commerce give proof
sufficient of Belgium's plans to build
again, on the ruins of the old, her
homes, her commerce and her indus-
tries.

For the first nine months of 1919
Belgium imports from America in-
cluded: Household goods and per-
sonal effects, \$1,505,000; cattle and
horses, \$790,000,000; lumber, \$1,215-
000; iron and steel products, \$9,524-
000; electrical machinery and ap-
pliances, \$648,000; binder twine, \$887-
000; refined copper, \$908,000; alu-
minum manufactures, \$233,000; zinc
spelter, \$416,000; hops, \$91,800, and
malt, \$2,782,000.

All of these to Belgium, whose to-
tal area is only 11,373 square miles.

Conspicuous among the iron and
steel products, and indicative of the
energy being put forth by the stricken
people to regain a lost commercial
ranking, are lathes and other machine
tools, sharpening, grinding and metal
working machinery, together with
countless items of lesser importance.
All, however, will serve to replace in
Belgium factories the machinery and
equipment carried away or destroyed
when the German hordes drove across
the little nation with only a desire to
wreak havoc and lay a path of
waste.

ADMIRAL SIMS AS AN INTERNATIONAL THORN

Admiral Sims, the bluff American sea dog, has again made it quite plain that he is a fighter and not a diplomat. This time he has trodden upon the British corns by publicly declaring that some American official, prior to the world war and as the Admiral was leaving on a European mission, warned him not to let the British pull the wool over his eyes, and cautioned him to remember that the United States had as soon fight Britain as Germany. The alleged advice was only a timely warning to Admiral Sims to smother his supposed pro-British predilections prior to the entry of this nation into the world war and to preserve that neutrality which was then the policy of the United States. It was not especially significant, no matter by whom given, and is of consequence now only in showing that one of the highest officials of the American navy is incapable of keeping within his own bosom secrets that, once made public, might result in a breach of relations between friendly nations. Most any school boy would have known better than to reveal instructions of so delicate a nature, and certainly any officer of the army or navy who makes statements of this kind must know that he is committing an offense for which a private would have been shot in the time of actual warfare. However, as the American and British people alike realize that Sims was talking for political effect only, and as all the world recognizes that he is one of the greatest sea fighters of his day, the incident will blow over. Thus is politics allowed to break down the morale of the navy, more's the pity.

THE RIGHT CHURCH BUT WRONG PEW

The Huntsville Times, prompted by a commendable civic spirit, has recently published a lengthy editorial in which it makes the prediction that Huntsville is to be the metropolis that is to arise in the Tennessee Valley. The editorial, in part says:

Make it the great, throbbing, pulsating heart center of the Imperial Tennessee Valley. More than sixty years ago the late Commodore Matthew Fontaine Maury in an address at Decatur said here in this Valley some day would be seen a great city. It might have been thought then he referred to our sister town on the Tennessee river, but logical events, from a favored geographical situation do not point that way, but do point to Huntsville.

The Times is in the right church, but it has strayed into the wrong pew. It is dreaming dreams that will come true, except that the metropolis that is to rear its proud head in the heart of the Tennessee Valley will be known to the world as Albany-Decatur. There is no way to get around this fact. What will make this metropolis? Answer that, and you have the answer to the whole puzzle. You will know what Commodore Maury had in mind. The answer is location and transportation. Where do the two main line railroads intersect? Where is the hub of the great system of highways that are being built? Where is cheap electrical power most available, in connection with unexcelled distribution facilities? Are all these things at Huntsville, a splendid little city that is destined

to still larger growth as the capital of a rich agricultural county? They are not.

EPITHETICAL FIRES AND ABUSE, NOT FREE SPEECH

Free speech and the right of assembly should be regarded as in the light of privileges rather than as absolute rights. Such a distinction will go far toward settling in the public mind just how far law and order authorities are justifiable in dispersing some assemblies, and in their denial of the privilege of some speakers to talk at length before a large company of people. Americanism cannot allow, of course, the curbing of any kind of a speech which carries with it sound reasoning and proceeds from persons of recognized good will for the community at large. Before any person is restrained from the free expression of what he thinks, it should be known definitely that such a person has ulterior motives as regards the public good. And even when the character of a suspicious speaker is known to be bad, he should not be restrained if he confines himself to parliamentary language, to the truth, and bases what he has to say on reasonable grounds. In many instances where there has gone up a loud complaint that free speech was being denied, intimate knowledge of the whole situation and of what was said, would often reveal the fact that the suppressed speakers were taking advantage of the wide freedom given in this country and were indulging unrestrained license of expression, regardless of the truth of the assertions made and that the authorities interfered, just as they would be expected to stop the throwing of dangerous missiles or the promiscuous discharge of fire arms.

The law is as justifiable in preventing the maligning of our free institutions and the passing of honest officials through the epithetical fires of blind hate, as it would be in preventing actual murder or in stopping a thief. As one William Shakespeare has truly said: "Who steals my purse steals trash, but he who filches from me my good name, doth not enrich himself, but makes me poor indeed." The American government has a just and valid right to defend its good name against the many unpatriotic people who from ignorance or malice or other improper reasons make it their favorite pastime to falsely accuse the government under which they live and which really they should be striving to make better and stronger each day of their existence.

In the same connection, there has been a lot of worse than rot spoken, against the deportation from our shores of late of certain undesirables who had been entirely too free with our liberties, and who had trampled upon the many gracious privileges our country afforded them. As well criticize the farmer for getting rid of mischievous foxes and rodents, or the chicken fancier for driving off the hawks, as to belittle or oppose the efforts of Uncle Sam to get rid of agitators who would resort to unfairness and violence in order to put into practice their selfish and impracticable theories.

Good Health Life's Greatest Blessing

Happiness and Success Within Easy Reach of Red Blooded Men and Women.

Anemic Condition Unnecessary

Pepto-Mangan Makes Rich, Red Blood—Builds Up Pale, Thin Anemic Men and Women.

Good health is the most important asset of life. Without a vigorous, strong body and a keen, clear mind, true happiness and enjoyment are impossible.

And yet so many women, and men too, whose misfortune it is to be pale, thin and anemic, hopelessly accept this condition in the belief that robust health and real happiness are not for them.

Thousands of men and women have been restored to vigorous health and lasting happiness by Gude's Pepto-Mangan. This beneficial blood tonic contains the very properties so vitally needed to improve the blood. Pepto-Mangan, if taken for a few weeks, will enrich the blood and create thousands of the tiny red blood cells that are so necessary to carry nourishment and strength to every part of the body.

Pepto-Mangan is safe, beneficial, and pleasant to the taste. For convenience it is prepared in liquid and tablet form, both possessing exactly the same medicinal properties.

Be sure to ask your druggist for "Gude's" when you order Pepto-Mangan. Look for the name "Gude's" on the package.—Advertisement.

Forgot Waiting Bride

When John Kemble, the gifted tragedian, was married, he returned to the stage to play Hamlet on his wedding evening. Whether his mind became so absorbed in the character as to exclude all other matters of vital importance, we cannot say; but for the time he forgot his waiting bride and what had befallen him on that fateful day, and went off to his own room on the conclusion of the performance at the theater.

YOUR HAIR IS FALLING OUT

"Q-Ban" Hair Tonic Stops Dandruff, Falling Hair, Grows Lots of New Hair. New Discovery.

Your hair and scalp need this stimulating "Q-Ban" Hair Tonic, so hasten to your nearest drug store or toilet counter and get a bottle. It don't cost much, so a trial any way is worth while. Mother! Teach the Children Their Daily Health Duty

You can't be too insistent!

FEW children find pleasure in the things most vital to their physical comfort and health, so it rests with the watchful mother to see that they are done. The child will be grateful in after years.

Chief among the functions necessary to the upbuilding of the little body, so that it will not be a dyspeptic, constipated body when it matures, is elimination regularly every morning. If the mother will be insistent and allow nothing to interfere with it, it will soon become a habit, a daily routine that will not be forgotten throughout life.

There are times, however, when nature will not operate unaided. Then give Dr. Caldwell's Syrup Pepsin, which is a combination of simple laxative herbs with pepsin, and the headaches, the biliousness, the torpor will quickly disappear. It acts gently and without griping, and as it contains no narcotics and is pleasant to the taste, it may

be given to infants. Thousands of families have been regulated to healthy maturity with Dr. Caldwell's Syrup Pepsin.

A bottle can be bought at any drug store. In a large family there is always someone who would feel better for a dose of a good medicine like Dr. Caldwell's Syrup Pepsin.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington Street, Monticello, Illinois.

PATHE ARTISTS PLEASE

The people of the Twin Cities who were so fortunate as to hear the Pathe artists who appeared at the Princess Theatre last evening, should be grateful to Messrs Kelley and Hawk, who, in their progressive-ness, brought to our midst artists of ability. Following Mr. Kelley's unique introduction, they gave an evening of unusual charm. The singers very confident, and indeed very fortunate in securing Miss Clarkson as accompanist, needed no other assistance, since her support was correct and sympathetic. The groups of songs given by each singer were chosen with splendid taste. Miss Hoffman interspersing her numbers with inimitable comment and explanation, her audience was grave, but entirely in sympathy with her as she passed from English to French numbers—always deeply appreciative. Of Mr. James' work and his heart songs, we can express it best by saying he has both quality and intelligent interpretation. He sang his numbers with a well controlled, refined musical tone and with studied phrasing. While the distinguished singers will long be remembered here, the accompanist, Miss Clarkson, added much to her long line of triumphs musical.

LADIES' BENEVOLENT SOCIETY

A meeting of the Ladies' Benevolent Society was held Thursday when about half of the returns were made from the recent drive, 139 members or subscriptions were handed in with more to hear from. Business Man Tells Clerks How to Keep Alert

A prominent business man recently revealed the secret of his vibrant, physical alertness.

"I learned years ago," said he, "that indoor people do not get sufficient oxygen and outdoor action to keep the liver active and keep the bodily poisons thrown off."

"When the liver is allowed to go to sleep, bodily poisons accumulate, physical resistance gets low, mental sharpness becomes blunted, your step drags, you get sluggish and tire easily, colds and all manner of ills get an easy hold on you."

"The best way to keep physically alert and healthy is to take BARBACALS; a highly effective but gently acting tablet of Rhubarb and refined Calomel. They do not sicken or gripe."

You can get a large box of BARBACALS from your druggist for 35 cents and if they do not give you the finest kind of satisfaction your money will be promptly refunded. Be sure to say the name distinctly—BARBACALS.

WAS EASY TO SEE GREAT CHANGE IN THIS MOBILE LADY

Had Been Troubled With Her Kidneys, Bladder, and General Female Weakness for Five Years.

ALL OVER NOW

The New Root and Herb Juice Remedy, Dreco, Relieved Her Troubles Completely.

"For the past five years I have been in a very bad condition from a bladder and kidney trouble, and a general breakdown from female weakness, and only those who have suffered as I did can understand what I have endured," writes that well known lady, Mrs. G. C. Elliott of 5 Gilbert, Street, Mobile, Ala.

"My troubles were of long standing, and I had been treated by two good doctors, and had taken many different remedies, but none ever did me much good. I often had severe attacks of vertigo. My food soured in my stomach, causing great distress and pains, and gas filled me up. I had awful backache and my limbs ached something dreadful. I was daily constipated; my nerves were on edge all the time, and my sleep was very much broken and failed to refresh me."

I have taken two bottles of Dreco and feel like a different person. My liver is active so that I have no more vertigo or dizzy spells. My bowels move regularly every day, without having to take something for them. The pain in my back and limbs is all gone now, and I sleep like a baby. Publish my letter for it may help someone else."

Dreco is an herbal remedy which rouses a lazy liver; stimulates the kidneys; regulates the bowels; induces sound sleep; quiets tired nerves and clears the poisons from the blood. It is pleasant to take and is good for young and old.

Dreco is now sold by all good druggists and is highly recommended in Albany by Albany Drug Co., and in Decatur by Hilda Drug Co.—Advertisement.

YOUR CATARRH MAY LEAD TO CONSUMPTION

Dangerous to Use Treatment for Only Temporary Relief.

There is a more serious stage of Catarrh than the annoyance caused by the stopped-up air passages, and other distasteful features. The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, atomizers, jellies and other local applications.

CONDITIONS IN MEXICO

In speaking of his recent visit to Corpus Christi, on the Mexican Border in South Texas, Andrew J. Roper, of Austinville, stated that as far as he could learn there is no national or racial hatred among the Mexicans toward America. "I saw scores and scores of Mexicans in Corpus Christi," said Mr. Roper. "In fact a large percentage of that city is made up of that nationality. And I talked with a lot of them with an eye as to what

they thought was the matter with this country and Mexico. Most of them did not seem to know there was any trouble and none, that I talked with, displayed any ill feeling toward the U. S. From what I can learn the whole trouble has arisen over differences over the oil lands and the oil rights that were sold to Americans in Mexico. As the oil business has increased in value by leaps and bounds, there seems to have grown up a feeling in Mexico, that the Americans who had oil concessions, were getting more than was coming to them, so in many cases the Mexicans have put everything they could in the way of our people. Of course the Americans feel that they are being treated wrong, as they ask nothing but the carrying out of their contracts. Of course the weakness of the government in Mexico has a lot to do with the killing of Americans, not that I believe the government is helping the bandits, but because it is not strong enough to punish them. And as every one of them knows this, they feel free to kill and destroy about as they please. Business was surely lively ever where I went in Texas, and every body seemed busy and contented."

Nature's Unchanging Rule.

Latent genius is but a presumption. Everything that can be is bound to come into being, and what never comes into being is nothing.—Amiel.

Proved Truth of Saying.

The saying, "United we stand, divided we fall," comes from one of Aesop's fables called "The Four Oxen and the Lion." Four oxen were attacked by a lion. They were safe when they turned their tails together, and presented their horns when they separated the lion killed them singly.

Drummer Doing His Bit

"I am a traveling salesman and have met others who, like myself, were suffering from indigestion, stomach trouble and gastritis. Since taking 3 weekly doses of Mayr's Wonderful Remedy I am very much pleased with its results, so much so that I have induced others to take it and they too were marvelously helped." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money returned. For sale by S. M. Thompson, Albany and Owl Drug Co., Decatur.—Advertisement.

CALOTABS ARE BEST FOR COLDS AND INFLUENZA

Doctors Now Prescribe Calotabs, the Purified Calomel Tablets That Are Nauseless, Safe and Sure.

Doctors are warning the public that simple colds and mild cases of influenza often lead to pneumonia and other serious complications. New Elixir, Called Aspironal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter If Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspironal, the two-minute cold and cough reliever, authoritatively guaranteed by the laboratories; tested, approved and most enthusiastically endorsed by the highest authorities, and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspironal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspironal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—Adv.)

VAUDEVILLE AND PICTURES
AT THE PRINCESS THEATRE
TODAY AND SATURDAY
 The Marvels who appear at the
 Princess Theatre today and Satur-
 day present an act of novelty comedy
 and baffling cleverness. "The Cir-
 cuss Fakers" gives a fine idea of the
 life of the nomads who make the
 small towns and country fairs their
 stamping grounds.
 Miss Marvel's idea of comedy is
 particularly pertinent and she and Mr.
 Marvel give a demonstration of phys-
 ical powers. This gift of Miss Mar-
 vel is carried out in fine comedy vein.
 It is well worth seeing. "The High
 Dive" is an especially good hit, origi-
 nal with the Marvels.
 Others on the vaudeville program
 are Evans & Evans, singing and
 dancing artists, and Chas. Ledegar
 who is styled "the flying boob" and
 who does a hair-raising rope act.
 The picture program includes Con-
 stance Talmadge in "A Temperamen-
 tal Wife," and a Mack Sennett Com-
 edy, "Back to the Kitchen."
 This program will be given at the
 Princess theatre both today and to-
 morrow, at popular prices.

 new vaudeville act, which went over
 big.

HAD TERRIBLE SKIN DISEASE

Little Girl Improves Rapidly When Given
ZIRON Iron Tonic.

Many mothers try one remedy after an-
 other, for the sufferings of their little ones,
 without apparently being able to find the
 right one. If anything seems wrong with
 the blood, or stomach, or if the child's
 system is run-down and needs strength-
 ening, you may benefit by the experience of
 this Westmoreland, Tenn., mother, Mrs.
 John F. Angles, who writes:
 "My little girl had a terrible skin disease
 and her stomach was in such a bad condi-
 tion. Nothing helped her, so we finally
 started to give her Ziron.
 She improved so rapidly from the first
 bottle, so we have given her two more.
 She is much better."

Don't try other remedies first! Choose
 Ziron from the start. It has benefited
 many people suffering from poor blood,
 general weakness, loss of appetite and
 other symptoms which indicate lack of
 iron in the blood.
 Sold by druggists on a money-back
 guarantee.
